THE TRUE NORTHERNER, and while but few people would be able, at first blush, to mention the several heads of the departments of the government, there is scarcely a person in the land who could not, without hesitation, announce that Hoke Smith was one of them. It is not thus for the good that he has done, but by reason of the illiberal interpretation that he, and those under him, have given to pension laws and the obnoxious manner in which they have endeavored to carry out their interpretations that have caused him to be so well remem-

But the administration of the duties of the pension department is not alone among the objects of the care of the Secretary of the Interior. Within his jurisdiction also are all matters pertaining to the government lands, grants of land to railroads and other corporations, and the abrogation of such original grants, by reason of the non-fulfillment of the conditions involved in the grant, the claims of purchasers, preemptors, homesteaders, etc. These are

matters for his judgment to decide.

The power of the Interior Department to affect the fortunes of many people for good or evil is strikingly illustrated by a recent decision of Secretary Smith regarding the title to lands in the western portion of the upper peninsula of this state. The decision is a matter of great misfortune to many people-to the homesteaders and settlers who supposed they had assured ownership to the lands upon which they had began to carve out homes in the wilderness. Mr. Smith has decided that the homesteaders on the lands in controversy have no rights whatever. The lands go the corporation which contested the homesteaders' and settlers' claims.

On one side of this controversy are poor men, settlers in a wild country, possessed of neither wealth nor influence to properly assert their rights. On the other hand was one of the richest and most powerful land corporations in the state, with plenty of money and influence - with everything but equity; and the corporation won.

It seems strange that the secretary, if he were imbued with a sense of justice, should have turned his back on these settlers on lands that were in right and equity public domain. The lands involved in this controver-
